Course Overview

This training program provides a detailed exploration of best practices in managing accounts receivable and payable, focusing on optimizing the cash cycle. Through it, participants will develop strategies to enhance cash flow management, improve efficiency in financial processes, and drive operational success. It empowers them to implement effective practices that maximize financial stability and performance.

Course Objectives

By the end of this program, participants will be able to:

- Optimize accounts receivable processes to improve cash flow.
- Implement best practices for managing accounts payable efficiently.
- Analyze and enhance the cash cycle for better liquidity management.
- Develop and execute strategies to improve working capital.
- Utilize advanced tools and techniques to streamline cash cycle management.

Target Audience

- Financial Managers.
- Accounts Receivable and Payable Professionals.
- Treasury Analysts.
- Controllers.
- CFOs and Financial Executives.

Methodology

This program will use a **blend of interactive lectures, case studies, group exercises, and practical simulations**. Participants will apply **real-world cash cycle management practices** using analytical tools, technology demonstrations, and peer-to-peer learning. The focus will be on **optimizing liquidity, enhancing efficiency, and aligning cash management with strategic financial goals**.
